REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is the specifically claimed system with including the first male and female coupling members are moved from an unengaged condition to a fully engaged condition by the movement of the first and second floating marine bodies toward each other in a first horizontal direction, the freedom of movement between the male coupling and the female coupling members, at least in the vertical direction, decreases as they become vertically aligned and one or both of the first male and female coupling members being of a resiliently flexible nature. Additionally, the body of the claims breath life and meaning to the preamble of the first and second buoyant marine bodies in a side to side manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
